

**MATERIALS SUMMARY FORM**

**Material Name:** Küberit Anodized Aluminum Profiles

**Manufacturer:** Küberit Profile Systems GmbH & Co. KG  
Römerweg 9  
58513 Lüdenscheid  
Germany

**Material Description:** Aluminum finishing, decorative, edge protection, transition  
For flooring and/or wall protection

**Material Type and Specification:** Anodized Aluminum

**Composition/Information on Ingredients:** **Aluminium Alloy EN AW 6060**  
AlMgSi0, 5F22  
Component %: 96.5  
% Si 0,30-0,60  
% Fe 0,10-0,30  
% Cu 0,1  
% Mn 0,1  
% Mg 0,35-0,60  
% Cr 0,05  
% Zn 0,15

**Physical and Chemical Properties:** Form: solid article  
Color: various  
Solubility (water): insoluble  
Decomposition temp: N/A

**Recycled Content - pre-consumer:** 70%  
**Recyclable Content - post-consumer:** 100%

**LEED Contribution:** MRc4 Recycled Materials

**Potentail Hazards Identification:** N/A  
Not considered to be or contain hazardous chemicals based on evaluations made by our company under the OSHA Hazard Communication Standard, CFR 1910.1200

**Ecological Information:** This product is considered to be ecologically benign, but is not readily decomposed by weathering or by microorganisms

**Stability and Reactivity:** Stable material  
Avoid overheating and contact with oxidizing agents
